

Sample Excel Data Entry & Data Cleaning Work

Description

This document presents a sample of my Excel data entry and copy-paste work using publicly available company information. The dataset includes company names, contact details, sector, location, official website, and Google Play Store links. The purpose of this sample is to demonstrate my ability to collect, clean, organize, and structure data accurately in Microsoft Excel.

Work Performed

- Collected company-related data from public sources
 - Entered and organized data into Excel
 - Cleaned unstructured information
 - Split mixed data into separate columns (Location, Company Website, Google Play Link)
 - Ensured consistent formatting and readability
-
